“ sittin here waitin for the service
I think back at all Frank and i have done together
we worked together back then, I remember pulling up to a job and
frank was runnin the threader power head, manually, i sat in the
truck and watched and when he was done I said Frank let me show
you how to do that ... i said this is a machine it has no brains it will
work all day so make it do the work for you {I learned that once also
from the Boss Man} we hunted together, I took Frank deer Hunting
for his first time back in the mid 90z he was successful and He took
me Coyote hunting for my first time as a matter of Fact we have ran
hounds right through his final resting place together, We fished
together Coffeen Carlyle Grenada Jacksonville and a few other
places, whether it was Cats or Crappie was to be determined,
We even blew smoke together we put the fire in the wire and talked
skip, the ole 4two7 got me lined up in the CB Radio business
oh so many years ago
recently Frank followed me into the Beekeeping Hobbie and i will be
blessed with his colonies
Frank was a determined man for sure if he wanted to do something
he was damn sure gonna do it and if i learned one thing more
important than anything else from Frank it was his determination to
accomplish what he wanted to do
A few Years ago i would visit Frank in the Hospital even if it was for
a short few minutes take him a huntin or fishin magazine i think he
enjoyed that but as recently as last Thursday i was riding around
town late in the evening and just a block away from his house i
thought i should stop in and see Frank but i didnt i was too busy well
Frank i am truly sorry i didn't stop now.
So if there is one other thing i may of learned from you it will be to
take the time as TOMORROW IS NOT PROMISED
REST EASY BUUUUUDWIZZER town clown over and out

*I forgot to mention we shared the love of dogs
He treated mine as one of his own and ohhh the Rabbits we chased
with Red and Shorty a pair of beagles he have me*
