“ Darcy was one of my sister’s respiratory therapists when she worked at Maple Ridge Care Center. I always knew that my sister was in kind loving care when Darcy was working. She was always upbeat and treated her patients with respect. When I found out her book had been published, I bought a copy from her and had her sign it for me. I thought that was quite an accomplishment. I know from the way she spoke about them that her greatest joy was her family. You have my sincere sympathy.

“ *My sincere sympathies to the entire family of this dear soul. My first memory of Darcy (in church) was when she was born and her family exuded such joy! Her little face was smiling always, and anyone around her couldn't help but smile back. That didn't change as she became the wonderful young lady, wife and mother that all were come to know.*

"When you remember me, it means that you have carried something of who I am with you, that I have left some mark of who I am on who you are. It means that you can summon me back to your mind even though countless years and miles may stand between us... It means that even after I die, you can still see my face and hear my voice and speak to me in your heart." -Frederick Buechner

“ *I was just one of her patients while she was a repository therapist & I've never been anything special, but at times she made me feel like I matted to somebody. She was such a beautiful person inside & out. She always talked about her husband & children, always with a smile on her face. My prayers go out to her husband & children. May God Bless all your lives.*
