“ *I got the chance to work directly with this man. I enjoyed working with him. He was delighted to know that I am also a programmer. It was a pleasure working with him. My condolences to the family left behind. This was a great loss for everyone that knew him.*

“ *I've known Dave since he came to work for Vision Data in 1986. He was always quiet and unassuming, but passionately committed to doing the best possible job for our company and our customers. It was a shock to lose him so suddenly and he will be missed.*

“ It is with deep sadness that I write this note. Dave and I worked together for his entire career at Vision and while we shared some heated debates, we both had great respect for each other, wanted the best for our customers and our company. He worked hard and cared for those around him. He was generous and compassionate. One memory that has stayed with me over the years is a Thanksgiving that he joined our family for dinner. It was an awesome surprise when he showed up with a homemade pumpkin cheesecake that was fantastic. He spent the afternoon playing with our 4 children and sharing stories from his childhood with his family. It was apparent how much he loved his siblings and parents. Dave will be greatly missed at Vision, not only for his leadership on one of our major applications but also for his wry sense of humor, upbeat attitude even thru the difficult treatments and deep compassion for others.

May your family feel God's presence during this difficult time.

*Best regards,
Amy Weaver*
