“ I am sorry for not being there for your services, but you were truly a great man. You worked me hard almost everyday, and every day you taught me something new either it be a life lesson or how to build a garden... Whenever I was in a pitch you were always there no matter what... You helped me with school events, you come to some of my baseball games, and that I cherish more then anything because you gave as much support as you possibly could.

You weren't technically family, but i always considered you as one. You were the closest person that I could call a grandpa. Sure i took for granted many things growing up, but after maturing and growing up a bit, i truly understand what you were trying to teach me all those years...

I am deepen with sorrow and guilt, because I don't even remember my last words to you or our last experience... After I left for college I never returned to Mason City or even paid you a visit or call. Life for me especially now is very busy and I am not the same person I was 9 years ago, I live on my own now, have a very good job, and working on starting my own family soon, so I can teach my kids the same values you once taught me.

Bud, again you were truly a great and peace loving man, and you cherished the world and your loved ones, and again I thank you so much for everything. May you rest in peace.

10-4 good buddy.
